4 Block Lamp LED – Key FEATURES

Direct AC Operated – Works on 220V–230V AC power, eliminating the need for an external power supply.

Power Supply Free Design – Simple installation with fewer components and reduced maintenance.

Energy Efficient & Eco-Friendly – Low power consumption with high brightness output.

Easy Installation – Simply place on the desired surface and fix using standard screws.

Heavy-Duty Aluminium PCB – Designed for superior durability and efficient heat dissipation, ensuring longer life.

Suitable for signages, light boxes, architectural lighting, and various exterior applications.

Application of LED 4 Block Lamp

Fabric Stretch Ceilings

Indoor Light Boxes
